NEW POLICY

Bachelor’s Degree Waiver of General Education Requirements

Students who have already earned a bachelor’s degree from a regionally accredited institution and are interested in pursuing an Associate of Applied Science (AAS) degree may use a bachelor’s degree to satisfy the general education requirements for most AAS degrees. Exceptions are generally special admissions programs, such as those listed below, due to special accreditation requirements. Students should consult with an academic advisor to determine their eligibility to waive the general education requirements.
