

# Biology

Recommended core science courses in the A.S. degree at CAC

|                 | Fall  | Spring             |
|-----------------|---|--------------------|
| 1st Year:       | <b>**CHM 151*</b><br>BIO 181                            | CHM 152<br>BIO 182 |
| 2nd Year:       | CHM 235<br><b>**PHY 111</b>                             | CHM 236<br>PHY 112 |
| Math Sequences: | Math thru MAT 221 or 231<br>as determined by 4-yr univ. |                    |

\* CHM 151 requires a prereq of CHM130 or H.S. chem with a C or better. Some chemistry is recommended for BIO181. To finish in 2 years, take CHM & MAT prereqs before your first year.

\*\*Math preqs. Check catalog.

The catalog has the other AGECE requirements for the Associate of Science degree.

Check the courses needed for your major at the university you plan to transfer to, as each university might have different requirements.
