

Technical Considerations for the Respondus LockDown Browser

- Lockdown Browser is not available for **Chromebooks** or other non-Windows/Mac devices.
- **Respondus will not work with Windows "S" version.** Windows S is a streamlined version of Windows that can only use apps from the Microsoft store. The Respondus download is not available for S.

Technical Considerations for Chromebooks:

- Uses a different Operating System than Windows or Mac
- Cannot install regular programs like Microsoft office suite
- There is no Chrome app for Respondus LockDown Browser
- Respondus is available only on Windows and Mac PCs and Laptops
- BB ULTRA, Microsoft Stream, Pearson MyLabs, among others do not have plugins for Chrome operating systems
- Does not support locally installed applications
- Some web-based applications are not supported by Chrome web browser or have limited features set when running chrome
- Chromebooks does not support most plug-ins
- Chromebooks supports a limited set of hardware
- Chromebooks does not support USB printers
