

## **Proposal for the 2021 Middle School Math Contest**

The following will be the Virtual Middle School Math contest format. Format of the contest is made of students earning points individually in an asynchronous portion and social media/school spirit portion. Schools can choose to take part in one or both. Contest goes live on Monday November 15<sup>th</sup> and it will close on Friday November 19<sup>th</sup>. Winners will be announced on our website and individually.

### **Asynchronous Portion**

Student mathletes are expected to participate each day of the math contest. Students will submit answers for each of the daily activities to earn points. The points earned by each student for each daily activity will be tallied at the end of the week. The student who participated in the most activities and earned the most points will be identified as this year's 1<sup>st</sup> place winner. Students will compete for first, second, and third place finishes for this competition.

Each of the teachers for the competing students will receive an award for their participation and support of the contest.

### **School spirit/Social Media**

School spirit week will be a metric for school participation, schools with the greatest school spirit participation will receive points towards the School Participation Award. This part of the contest will be based on schools showing math spirit on social media. A hashtag will be created and used to determine which school had the most participation. A prize will be awarded for the school with the most school spirit. Spirit week will be from Monday November 15<sup>th</sup> – Friday November 19<sup>th</sup>.
